EMPLOYEES' PENSION PLAN

The City provides pension benefits for all of its full-time employees through a joint contributory defined contribution plan in the Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system.

Benefits depend upon the sum of the employee's contributions to the plan, with interest, and the city-financed monetary credits, with interest. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions with interest and the employer-financed monetary credits with interest were used to purchase an annuity.

Members can retire at age 60 and above with 10 or more years of service or with 25 years of service regardless of age. The plan also provides death and disability benefits. A member is vested after 10 years, but he must leave his accumulated contributions in the plan. If a member withdraws his own money, he is not entitled to the employer-financed monetary credits, even if he was vested. The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS and within the actuarial constraints also in the statutes.

The contribution rate for the employees is 5%, and the City matching percent is currently 100%, both as adopted by the governing body of the City. Under the state law governing TMRS, the City contribution rate is annually determined by the actuary. This rate consists of the normal cost contribution rate and the prior service contribution rate, both of which are calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the currently accruing monetary credits due to City matching percent, which are the obligation of the City as of an employee's retirement date, not at the time the employee's contributions are made. The normal cost contribution rate is the actuarially determined percent of payroll necessary to satisfy the obligation of the City to each employee at the time his retirement becomes effective. The prior service contribution rate amortizes the unfunded actuarial liability over the remainder of the plan's 25-year amortization period. When the City periodically adopts updated service credits and increases in annuities in effect, the increased unfunded actuarial liability is to be amortized over a new 25-year period. Currently, the unfunded actuarial liability is being amortized over the 25 year period which began October, 1987. The unit credit actuarial cost method is used for determining the City contribution rate. Contributions are made monthly by both the employees and the city. Since the city needs to know its contribution rate in advance to budget for it, there is a one-year lag between the actuarial valuation that is the basis for the rate and the calendar year when the rate goes into effect.

The City's total payroll in fiscal year 1991 was \$176,273 and the City's contributions were based on a payroll of \$172,866. Both

the City and the covered employees made the required contributions, amounting to \$4,648 (2.97% of covered payroll for the months in calendar year 1990, 2.89% normal cost plus 0.08% to amortize the unfunded actuarial liability, and 2.60% for the months in calendar year 1991, 2.58% normal cost plus 0.02% to amortize the unfunded actuarial liability) for the city and \$8,619 (5%) for the employees. There were no related-policy transactions.

Even though the substance of the City's plan is not to provide a defined benefit in some form, some additional voluntary disclosure is appropriate due to the nontraditional nature of the defined contribution plan which had an initial unfunded pension benefit obligation due to the monetary credits granted by the City for services rendered before the plan began and which can have additions to the unfunded pension benefit obligation through the periodic adoption of increase in benefit credits and benefits. Statement No. 5 of the Governmental Accounting Standards Board (GASB 5) defines pension benefit obligation as a standardized disclosure measure of the actuarial present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of public employee pension plans, assess progress made in accumulating sufficient assets to pay benefits when due, and make comparisons among public employee pension plans.

The pension benefit obligation shown below is similar in nature to the standardized disclosure measure required by GASB 5 for defined benefit plans except that there is no need to project salary increases since the benefit credits earned for service to date are not dependent upon future salaries. The calculations were made as part of the annual actuarial valuation as of December 31, 1990. Because of the money-purchase nature of the plan, the interest rate assumption, currently 8.5% per year, does not have as much impact on the results as it does for a defined benefit plan. Market value of assets is not determined for each City's plan, but the market value of assets for TMRS as a whole was 106.2% of book value as of December 31, 1990.

Pension Benefit Obligation

Annuitants currently receiving benefits	\$ -0-

Accumulated employee contributions including allocated invested earnings	16,743

Total	<u>\$ 30,231</u>
Net Assets Available for Benefits, at Book Value	\$ 31,277
Assets in Excess of Pension Benefit Obligation	\$ 1,046

The book value of assets is amortized cost for bonds and original cost for short-term securities and stocks. The actuarial assumptions used to compute the actuarially determined City contribution rate are the same as those used to compute the pension benefit obligation.

Trend information is useful in providing information about progress made in accumulating sufficient assets to pay benefits when due. Trend information for the calendar years ended December 31, 1988, 1989, and 1990 (latest available), respectively, is as follows: available assets were sufficient to fund 90.2 percent, 92.8 percent, and 94.9 percent of the pension benefit obligation. The unfunded pension benefit obligation represented 12.5 percent, 9.8 percent and 6.8 percent of the annual payroll for employees covered by the TMRS for 1988, 1989 and 1990 respectively. Presenting the unfunded pension benefit obligation as a percentage of annual covered payroll approximately adjusts for the effects of inflation for analysis purposes. It is noted that trend information for the City will be for calendar years rather than for September 30 year ends in order to be consistent with TMRS figures.

The three year historical trend information is being developed prospectively. The information for the last three years is as follows:

	Years Ended 9/30

The south central Texas county is the major component of the San Antonio Metropolitan Statistical Area, and is traversed by Interstate Highways 10 and 35, four U.S. Highways and two State Highways. The economy is based on agriculture, mineral production, medical facilities, manufacturing and tourism. The *Texas Almanac* designates cattle, sorghums, vegetables, hay and corn as principal sources of agricultural income.

The 1990 County census was 1,185,394, an increase of 19.9% since 1980, making it the third most populated county in Texas. Retail sales for 1991 totaled \$9.04 billion. County-wide employment was 445,647 with earnings of \$2.27 billion in the first quarter of 1992 as reported by the Texas Employment Commission. A total of 65.5% of the households had Effective Buying Incomes in excess of \$20,000, while 15.4% had incomes below \$10,000.

Minerals produced in Bexar County include cement, stone, oil, and gas. There were 486,838 barrels of crude oil and 80 million cubic feet of natural gas recovered in 1991. Fourteen institutions of higher education are located here, including St. Mary's University, the University of Texas at San Antonio, and San Antonio College. TAX EXEMPTION

The delivery of the Bonds is subject to the delivery of an opinion of Fulbright & Jaworski, Bond Counsel to the City ("Bond Counsel"), to the effect that interest on the Bonds under existing statutes, regulations, published rulings, and court decisions (1) will be excludable from the gross income, as defined in section 61 of the Internal Revenue Code of 1986, as amended to the date of initial delivery of the Bonds (the "Code"), of the owners thereof for federal income tax purposes, pursuant to section 103 of the Code, and (2) will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as hereinafter described, corporations. The statutes, regulations, rulings, and court decisions on which such opinions will be based are subject to change.

Interest on all tax-exempt obligations, including the Bonds, owned by a corporation will be included in such corporation's adjusted current earnings for purposes of calculating the alternative minimum taxable income of such corporation, other than an S corporation, a qualified mutual fund, a real estate investment trust, or a real estate mortgage investment conduit. A corporation's alternative minimum taxable income is the basis on which the alternative minimum tax imposed by section 55 of the Code and the environmental tax imposed by the section 59A of the Code will be computed.

In rendering the foregoing opinions, Bond Counsel will rely upon representations and certifications of the City made in a certificate of even date with the initial delivery of the Bonds pertaining to the use, expenditure, and investment of the proceeds of the Bonds and will assume continuing compliance with the provision of the Ordinance authorizing the Bonds (the "Ordinance") by the City subsequent to the issuance of the Bonds. The Ordinance contain covenants by the City with respect to, among other matters, the use of the proceeds of the Bonds and the facilities and equipment financed therewith by persons other than state or local governmental units, the manner in which the proceeds of the Bonds are to be invested, if required, the calculation and payment to the United States Treasury of any "arbitrage profits" and the reporting of certain information to the United States Treasury. Failure to comply with any of these covenants may cause interest on the Bonds to be includable in the gross income of the owners thereof from the date of the issuance of the Bonds.

Except as described above, Bond Counsel will express no other opinion with respect to any other federal, state or local tax consequences under present law, or proposed legislation, resulting from the receipt or accrual of interest on, or the acquisition or disposition of, the Bonds. Prospective purchasers of the Bonds should be aware that the ownership of tax-exempt obligations such as the Bonds may result in collateral federal tax consequences to, among others, financial institutions (see discussion below under caption "Qualified Tax-exempt Obligations"), life insurance companies, property and casualty insurance companies, S corporations with subchapter C earnings and profits, certain foreign corporations doing business in the United States, individual recipients of Social Security or Railroad Retirement benefits, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations. Prospective purchasers should consult their own tax advisors as to the applicability of these consequences to their particular circumstances.

QUALIFIED TAX-EXEMPT OBLIGATIONS

Section 265 of the Code provides, in general, that interest expense incurred to acquire or carry tax-exempt obligations is not deductible from the gross income of the owner thereof. In addition, interest expense incurred by certain owners that are "financial institutions" within the meaning of such section and which is allocable to tax-exempt interest is completely disallowed as a deduction, with respect to tax-exempt obligations acquired after August 7, 1986. Section 265(b) of the Code provides an exception to this rule for interest expense incurred by financial institutions and allocable to tax-exempt obligations (other than private activity bonds) which are designated by an issuer, such as the City, as "qualified tax-exempt obligations". An issue may be designated as "qualified tax-exempt obligations" only when the amount of such issue, when added to all other tax-exempt obligations (other than private activity bonds) issued by the issuer during the same calendar

year, does not exceed \$10,000,000. The Internal Revenue Service has indicated informally that this requirement will be met when the aggregate face amount of all obligations issued by an issuer in a calendar year does not exceed \$10,000,000, provided that the issuer does not receive proceeds from the sale of the obligations in excess of \$10,000,000, plus accrued interest.

The City has, pursuant to the Ordinance, designated the Bonds as "qualified tax-exempt obligations". Accordingly, it is anticipated that financial institutions that purchase the Bonds will not be subject to the 100 percent disallowance of interest expense allocable to interest on the Bonds under section 265(b) of the Code. However, interest expense incurred by a financial institution which is allocable to the interest on the Bonds would be subject to the 20 percent disallowance rule which was generally applicable under section 265 of the Internal Revenue Code of 1954, as amended.

TAX ACCOUNTING TREATMENT OF DISCOUNT ON CERTAIN BONDS

The initial public offering price of certain stated maturities of the Bonds (the "Discount Bonds") is less than the stated redemption price at maturity (as defined in section 1272 of the Code and Treasury Regulations thereunder) on such Bonds. An amount equal to the difference between the initial public offering price of a Discount Bond (assuming that a substantial amount of the Discount Bond of that stated maturity are sold to the public at such price) and the stated redemption price at maturity constitutes original issue discount to the initial purchaser of such Discount Bonds. Proposed Treasury Regulations provide that such original issue discount may result from the Bonds having an interest payment period longer than six months. A portion of such original discount, allocable to the holding period of such Discount Bond by the initial purchaser, will, upon the disposition of such Discount Bond (including by reason of its payment at maturity), be treated as interest excludable from gross income, rather than as taxable gain, for federal income tax purposes. Such interest is considered to be accrued actuarially in accordance with the constant interest method over the life of a Discount Bond, taking into account the semiannual compounding of accrued interest, at the yield to maturity on such Discount Bond. The allocation of such original issue discount will generally result in an amount treated as interest that is different than the amount of the payment denominated as interest actually received by the owner thereof during his taxable year.

Such interest may be required to be taken into account in determining the alternative minimum taxable income of a corporation, for purposes of calculating a corporation's alternative minimum tax imposed by section 55 of the Code and the environmental tax imposed by section 59A of the Code, and the amount of the branch profits tax applicable to certain foreign corporations doing business in the United States, even though there will not be a corresponding cash payment. In addition, the accrual of such interest may result in certain other collateral federal income tax consequences to, among others, financial institutions, property and casualty insurance companies, life insurance companies, S corporations with subchapter C earnings and profits, individual recipients of Social Security or Railroad Retirement Benefits, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations. Moreover, in the event of the sale or other taxable disposition of a Discount Bond prior to stated maturity, the amount realized by such owner in excess of the basis of such Discount Bond in the hands of such owner (adjusted upward by the portion of the original issue discount allocable to the period for which such Discount Bond was held) is includable in gross income.

Owners of Discount Bonds should consult with their own tax advisors with respect to the determination for federal income tax purposes of accrued interest upon disposition of Discount Bonds and with respect to the state and local tax consequences of owning Discount Bonds. It is possible that, under applicable provisions governing determination of state and local income taxes, accrued interest on Discount Bonds may be deemed to be received in the year of accrual even though there will not be a corresponding cash payment.

LITIGATION

In the opinion of various officials of the City, there is no litigation or other proceeding pending against or, to their knowledge, threatened against the City in any court, agency, or administrative body (either state or federal) wherein an adverse decision would materially adversely affect the financial condition of the City.

REGISTRATION AND QUALIFICATION OF BONDS FOR SALE

The sale of the Bonds has not been registered under the Securities Act of 1933, as amended, in reliance upon exemptions provided in such Act; the Bonds have not been qualified under the Securities Act of Texas in reliance upon exemptions contained therein; nor have the Bonds been qualified under the securities acts of any jurisdiction. The City assumes no responsibility for qualification of the Bonds under the securities laws of any jurisdiction in which they may be sold, assigned, pledged, hypothecated or otherwise transferred. This disclaimer of responsibility for qualification for sale or other disposition of the Bonds shall not be construed as an interpretation of any kind with regard to the availability of any exemption from securities registration or qualification provisions.

LEGAL INVESTMENTS AND ELIGIBILITY TO SECURE PUBLIC FUNDS IN TEXAS

Pursuant to Section 9 of the Bond Procedures Act of 1981, as amended, Texas Revised Civil Statutes Annotated Article 717k-6, obligations, such as the Bonds, issued by an issuer constitute negotiable instruments, and are investment securities governed by Chapter 8, Texas Uniform Commercial Code, notwithstanding any provisions of law or court decision to the contrary, and are legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, and trustees, and for the sinking fund of cities, towns, villages, school districts, and other political subdivisions or public agencies of the State of Texas. Texas law further provides that obligations, such as the Bonds, which are rated not less than "A" or its equivalent as to investment quality by a nationally recognized rating agency, are eligible to secure deposits of public funds of the State, its agencies, and political subdivisions, and are legal security for those deposits to the extent of their market value. No review by the City has been made of the laws in other states to determine whether the Bonds are legal investments for various institutions in those states. (See "Rating" herein.)

LEGAL OPINIONS AND NO-LITIGATION CERTIFICATE

The City will furnish the Purchaser with a complete transcript of proceedings incident to the authorization and issuance of the Bonds, including the unqualified approving legal opinion of the Attorney General of the State of Texas to the effect that the Initial Bond is a valid and legally binding obligation of the City, and based upon examination of such transcript of proceedings, the approval of certain legal matters by Bond Counsel, to the effect that the Bonds, issued in compliance with the provisions of the Ordinance, are valid and legally binding obligations of the City and, subject to the qualifications set forth herein under "TAX EXEMPTION", the interest on the Bonds is exempt from federal income taxation under existing statutes, published rulings, regulations, and court decisions. The customary closing papers, including a certificate to the effect that no litigation of any nature has been filed or is then pending to restrain the issuance and delivery of the Bonds, or which would affect the provision made for their payment or security, or in any manner questioning the validity of the Bonds will also be furnished. The legal fees to be paid Bond Counsel for services rendered in connection with the issuance of the Bonds are contingent on the sale and delivery of the Bonds. The legal opinion of Bond Counsel will be printed on the definitive Bonds.

RATING

A rating application has not been made to any national rating service. The City has never issued debt and therefore does not have a rating from a national service.

CERTIFICATE AS TO TAX EXEMPTION

The undersigned, being the duly chosen and qualified Mayor and City Manager of the City of Helotes, Texas (the *City*), hereby certify with respect to the CITY OF HELOTES, TEXAS GENERAL OBLIGATION BONDS, SERIES 1993 in the aggregate principal amount of \$350,000 (the *Bonds*), as follows:

A. General.

1. For all purposes of this certificate, unless otherwise defined, all defined terms herein shall have the same meaning given to them in the Ordinance and the Regulations (each as defined below).

2. Pursuant to state law and the Ordinance authorizing the issuance of the Bonds, we, along with other officers of the City, are charged with the responsibility for issuing the Bonds.

3. This certificate is made pursuant to Treasury Regulations Sections 1.103-13, 1.103-14, 1.103-15, 1.148, 1.149, and 1.150 (the *Regulations*), and sections 103 and 141-150 of the Internal Revenue Code of 1986, as amended to the date hereof (the *Code*).

4. This certificate is based on the facts and estimates described herein in existence on the Closing Date, and, on the basis of such facts and estimates, the City expects that the future events described herein will occur. The City covenants not to take any intentional acts or actions after the Closing Date of the Bonds to earn a Yield upon the investment of the proceeds materially higher than the Yield on the Bonds, except as provided herein.

5. The City has never been disqualified by the Commissioner of Internal Revenue from certifying an issue of its obligations pursuant to Section 1.103-13(a)(2)(iv) of the Regulations, has never been listed in a notice of disqualification in the Internal Revenue Bulletin, and has never been advised that such a disqualification is contemplated.

6. The City's employer identification number is 1-74-2220224-6.

B. Purpose and Size.

1. The Bonds are being issued pursuant to an Ordinance of the City adopted on December 3, 1992 (the *Ordinance*) for the purpose of making permanent public improvements within the City limits, including: building, constructing, improving, or renovating a public building or buildings for municipal purposes to be utilized as a municipal complex (the *Project*).

2. The City will, at all times prior to the last Stated Maturity of the Bonds,

(a) exclusively own, operate, and possess all property acquired, constructed, or improved with Gross Proceeds and not use or permit the use of any property acquired, constructed, or improved with Gross Proceeds in any activity carried on by any person or entity (other than a state or local government), *unless* such use is merely as a member of the general public, or

(b) not directly or indirectly impose or accept any charge or other payment for use of Gross Proceeds or any property acquired, constructed, or improved with Gross Proceeds, other than a charge or other payment merely as a member of the general public or interest earned on Investments acquired with Gross Proceeds pending application for their intended purposes, either or both.

3. The City will not use Gross Proceeds to make or finance loans to any person or entity other than a state or local government. For purposes of the foregoing covenant, Gross Proceeds are considered to be "loaned" to a person or entity if (1) property acquired, constructed, or improved with Gross Proceeds is sold or leased to such person or entity in a transaction which creates a debt for federal income tax purposes, (2) capacity in or service from such property is committed to such person or entity under a take-or-pay, output, or similar contract or arrangement, or (3) indirect benefits, or burdens and benefits of ownership, of Gross Proceeds or any property acquired, constructed, or improved with Gross Proceeds are otherwise transferred in a transaction which is the economic equivalent of a loan.

4. The amounts received from the sale of the Bonds, when added to the amount expected to be received from the investment thereof, do not exceed the amounts required to pay the costs of the Project and of issuing the Bonds.

5. No receipt from the sale of the Bonds or amounts received from the investment thereof will be used to pay the principal of or interest on any currently outstanding debt obligation of the City similar to the Bonds other than the Bonds.

C. Source and Disbursement of Funds.

1. The Bonds are being issued and delivered to Rauscher Pierce Refsnes, Inc. (the *Purchaser*), and the City has received as a result of the sale of the Bonds an amount equal to \$350,434.75, which represents a purchase price of par, plus a premium of \$58.40, plus accrued interest in the amount of \$376.17.

2. The amount representing accrued interest is being deposited on the date hereof in the General Obligation Bonds, Series 1993, Interest and Sinking Fund (the *Bond Fund*) created by the Ordinance and will be used to pay the first payment of interest to become due on the Bonds on August 1, 1993.

3. Of the remaining proceeds of the Bonds received by the City from the Purchaser, approximately \$8,820.00 will be used to pay the costs of issuance (other than underwriter's spread) relating to the Bonds, and \$341,238.40 will be deposited in a separate checking account of the City (the *Construction Account or Fund*) to pay costs of the Project. The City estimates that it will receive \$6,000.00 in income or profit from the investment of the amounts deposited to the Construction Fund pending the disbursement of such amounts for the governmental purposes for which the Bonds are being issued. Such amount will be used to pay additional costs of the Project or deposited in the Bond Fund to pay principal of or interest on the Bonds within one year from the date of receipt.

D. Temporary Periods and Time for Expenditures.

1. Within six months from the date hereof, the City will have incurred binding obligations or commitments in the amount of at least \$100,000.00 for the Project by entering into contracts for construction, architectural services, engineering services, land acquisition, site development, construction materials, or the purchase of equipment.

2. After entering into said contracts, work on the construction or acquisition of the Project will proceed with due diligence to completion, which is expected to occur on, and the proceeds from the sale of the Bonds and investment earnings thereon are expected to be expended by December 31, 1994.

3. Based on the foregoing, the City expects to invest Gross Proceeds, held in the Construction Fund, without regard as to restriction of Yield until January 7, 1996.

E. Bond Fund.

1. The Bonds are payable from an ad valorem tax levied, within the limits prescribed by law, upon all taxable property located within the jurisdiction of the City. All taxes levied and collected for and on account of the Bonds are to be deposited into the Bond Fund.

2. Except for that portion of the Bond Fund, if any, consisting of deposits made to defease in whole or in part the Bonds, the Bond Fund (i) was created primarily to achieve a proper matching of revenues and debt service with respect to the Bonds within each one year period, beginning on the Closing Date and ending on each anniversary of the Closing Date thereafter until the Bonds are no longer Outstanding and (ii) will be depleted at least once a year except possibly for a carry-over amount not greater than the larger of one year's income from the investment thereof or one-twelfth of the annual debt service requirements on the Bonds. All amounts deposited to the Bond Fund will be spent within 13 months of deposit, and all amounts received from investment of such fund will be deposited therein and will be expended within twelve months of receipt. Any amounts held in

the Bond Fund during such periods are expected to be invested by the City without regard as to restriction of Yield. Any amounts held in the Bond Fund in excess of such periods will be invested at a Yield not to exceed the Yield on the Bonds.

3. All money deposited in the Bond Fund will be used solely to pay the principal of, and interest on, the Bonds as the same becomes due and payable, and there will be no other funds that will be so used or pledged or otherwise restricted so as to be available with reasonable certainty to be so used.

F. Yield, Rebate and Miscellaneous.

1. The Yield on the Bonds is 6.0682572%, calculated on the basis of the information provided in the Issue Price Certificate, attached hereto as Exhibit A.

2. The City has covenanted to account for the Gross Proceeds of the Bonds separately and apart from all other funds of the City from the date hereof.

3. The weighted average maturity of the Bonds is 9.98 years.

4. The City is a governmental unit with general taxing powers, the Bonds are not private activity bonds, 95% or more of the Net Proceeds of such Bonds are to be used for local governmental activities of the City (or of a governmental unit the jurisdiction of which is entirely within the jurisdiction of the City), the aggregate face amount of all tax-exempt obligations (other than private activity bonds) issued by the City (and all entities with which the City would be treated as a single issuer under section 148(f)(4)(C) of the Code) during the calendar year 1993 is not reasonably expected to exceed \$5,000,000.00, and the City will not spend the Gross Proceeds of the Bonds so as to cause the Bonds to become private activity bonds. Accordingly, the City does not expect to be required to rebate to the United States Treasury any "arbitrage" profits resulting from the investment of proceeds of the Bonds.

5. In the Ordinance, the City has designated the Bonds as *qualified tax-exempt obligations*, as defined in section 265(b) of the Code.

6. The City does not expect that the proceeds of the Bonds will be used in a manner that would cause the Bonds to be arbitrage bonds within the meaning of section 148 of the Code.

FINAL

IN REGARD to the authorization and issuance of the "City of Helotes, Texas General Obligation Bonds, Series 1993" (the *Bonds*), dated January 1, 1993, in the aggregate principal amount of \$350,000, we have reviewed the legality and validity of the issuance thereof by the City of Helotes, Texas (the *City*). The Bonds are issuable in fully registered form only, in denominations of \$5,000 or any integral multiple thereof, and have stated maturities of February 1 in each of the years 1994 through 2009, unless redeemed prior to stated maturity in accordance with the terms stated on the face of the Bonds. Interest on the Bonds accrues from the dates, at the rates, in the manner, and is payable on the dates, all as provided in the ordinance authorizing the issuance of the Bonds (the *Ordinance*).

WE HAVE SERVED AS BOND COUNSEL for the City solely to pass upon the legality and validity of the issuance of the Bonds under the laws of the State of Texas, and with respect to the exemption of the interest on the Bonds from federal income taxes and for no other purpose. We have not been requested to investigate or verify, and have not independently investigated or verified, any records, data, or other material relating to the financial condition or capabilities of the City. We express no opinion and make no comment with respect to the sufficiency of the security for or the marketability of the Bonds.

WE HAVE EXAMINED, and in rendering the opinions herein we rely upon, original or certified copies of the proceedings of the City Council of the City in connection with the issuance of the Bonds, including the Ordinance, customary certifications and opinions of officials of the City; certificates executed by officers of the City relating to the expected use and investment of proceeds of the Bonds and certain other funds of the City, and to certain other facts within the knowledge and control of the City; and such other material, including an examination of the Bonds executed and delivered initially by the City, which we found to be in due form and properly executed, and such matters of law as we deem relevant to the matters discussed below. In such examination, we have assumed the authenticity of all documents submitted to us as originals, the conformity to original copies of all documents submitted to us as certified copies, and the accuracy of the statements contained in such certificates. We express no opinion concerning any effect on the following opinions which may result from changes in law effected after the date hereof.

Legal Opinion of Fulbright & Jaworski L.L.P. in connection with the authorization and issuance of \$350,000 "City of Helotes, Texas General Obligation Bonds, Series 1993"

BASED ON OUR EXAMINATION, IT IS OUR OPINION that the Bonds have been duly authorized and issued in conformity with the laws of the State of Texas now in force and that the Bonds are valid and legally binding obligations of the City enforceable in accordance with the terms and conditions described therein, except to the extent that the enforceability thereof may be affected by bankruptcy, insolvency, reorganization, moratorium, or other similar laws affecting creditors' rights or the exercise of judicial discretion in accordance with general principles of equity. The Bonds are payable from the levy of an annual ad valorem tax, within the limitations prescribed by law, upon all taxable property in the City.

IT IS FURTHER OUR OPINION THAT, assuming continuing compliance after the date hereof by the City with the provisions of the Ordinance and in reliance upon the representations and certifications of the City made in a certificate of even date herewith pertaining to the use, expenditure, and investment of the proceeds of the Bonds, under existing statutes, regulations, published rulings, and court decisions (1) interest on the Bonds will be excludable from the gross income, as defined in section 61 of the Internal Revenue Code of 1986, as amended to the date hereof (the *Code*), of the owners thereof for federal income tax purposes, pursuant to section 103 of the Code, and (2) interest on the Bonds will not be included in computing the alternative minimum taxable income of the owners thereof who are individuals or, except as hereinafter described, corporations.

WE CALL YOUR ATTENTION TO THE FACT THAT, with respect to our opinion in clause (2) above, interest on all tax-exempt obligations, such as the Bonds, owned by a corporation will be included in such corporation's adjusted current earnings for purposes of calculating the alternative minimum taxable income of such corporation, other than an S corporation, a mutual fund, a real estate mortgage investment conduit, or a real estate investment trust. A corporation's alternative minimum taxable income is the basis on which the alternative minimum tax imposed by section 55 of the Code and the environmental tax imposed by section 59A of the Code will be computed.

WE EXPRESS NO OPINION with respect to any other federal, state, or local tax consequences under present law or any proposed legislation resulting from the receipt or accrual of interest on, or the acquisition or disposition of, the Bonds. Ownership of tax-exempt obligations such as the Bonds may result in collateral federal tax consequences to, among others, financial institutions, life insurance companies, property and casualty insurance companies, certain foreign corporations doing business in the United States, S corporations with subchapter C earnings and profits, individual recipients of Social Security or Railroad Retirement Benefits, and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry, or who have paid or incurred certain expenses allocable to, tax-exempt obligations.
