## HEALTH INSPECTION SUMMARY FEBRUARY 2022

### PART ONE--FOOD SAFETY REPORT

This report provides current information on the food safety program in Helotes. The Texas Food Code is based on the principles of hazard analysis and critical control points (HACCP). In the implementation of HACCP the focus includes food manager education and professional consultation toward improvement in addition to periodic inspections. To ensure uniformity in the application of the Texas Food Establishment Rules the inspection report form is utilized. Inspections are random to ensure handling of peak times on a variety of days. The inspection report form summarizes inspectional findings with a weighted point value for each classification of inspection items. The report form which is reviewed with and signed by the food establishment management and is posted in each retail establishment. Critical items inspected are temperatures, food control surfaces, cross-contamination, etc.; other items inspected are less critical. The compliance score is the total number of demerits. (A score of "0" indicates full compliance with critical and non-critical items.)

**Copies of these reports are filed with the City of Helotes as well as posted in the individual establishments.**

The compliance score is the total number of demerits. (A score of "0" indicates full compliance with critical and non-critical items.)

For ease a rating system would be

EXCELLENT	0-10 demerits
GOOD	11-20 demerits
ACCEPTABLE	21-29 demerits
POOR	30 or more demerits

<u>Name of Establishment</u>	<u>Compliance Score*</u>	<u>Rating</u>

As the person in charge of this facility, I understand I am responsible for food safety practices described in sections 229.163 (b) and 229.163 (c) of the Texas State Food Code. I understand that failure of employees to conduct a 20 second hand wash prior to starting work, after handling raw products or visiting the restroom and that failure to manage required temperature and time controls have a high risk of causing food-borne illness. I agree to implement corrective actions described in Part E to reduce the risk of food-borne illness.
